Head of School: Mr P. Rock

Message from Mr Rock

Welcome back to the final half term of this academic year.

I hope you all had a lovely half term and enjoyed the fantastic weather we were blessed with.

This week Willow Class visited Conkers for the summer trip. Considering the wetter weather we have had this week, they had a dry day. The children had a fantastic day exploring woodland, seeing wildlife and getting their feet wet as part of a sensory trail!

Children in Years 1-5 have been taking part in their summer term assessments this week. They have all been working really hard to show us how fantastic they all are.

Please remember that this year is the 'National Year of Reading. The official website has lots of ideas to help support families at home. Please click the link below to find out more.

<https://goallin.org.uk/resources/#audience=families5to10>

We currently have a vacancy for a school governor. If you feel this would be of interest, please speak to the school office for more information.

Be safe
Be ready
Be respectful

Well done to our team of pupils from Year 5&8 who took part in the Cricket activity today. Great teamwork shown by all.

On Monday, Year 5 will be visiting Lutterworth College for an open day. We hope they have a wonderful time.

I look forward to seeing lots of you for Sports Day, next Wednesday. 1pm start.

Thank you for your continued support.

Mr Rock

**Congratulations to our
certificate winners this week.**

Willow Class Newsletter

Willow class has had a great start to the half term with a trip to Conkers! We were able to take part in a barefoot walk, complete an activity trail, explore the sensory garden and travel over the wobbly bridges. The focus of our trip was to learn about the 'Secret Life of a Seed' and how seeds are dispersed. The children and staff had a wonderful day and managed to avoid the rain.

This week the reception has been learning about growing plants through sharing to text 'Jack and the beanstalk'. We will continue to nurture the sunflower seeds that they have planted before half term. Also we have been looking for and naming 3D shapes in the environment

Year 1 and 2 are continuing to learn about telling the time, focusing on o'clock, half past and quarter past on an analog clock. The writing topic is going to be on writing a recount learning based on personal experiences.

In PSHE this half term the children will be learning about the unit 'Growing and Changing'. This focuses on helping children to understand how they grow, how to care for others and how to stay safe. It uses stories, discussions, and activities featuring Harold the Giraffe to explore life cycles and physical and emotional changes.

What Parents & Educators Need to Know about ALLERGIES & ANAPHYLAXIS

An allergy is an overreaction of the immune system to a food or substance that's usually harmless. Symptoms can be mild, but for some people they can be very serious. This is known as anaphylaxis.

HOW TO SAY ANAPHYLAXIS: ANA-FIL-AX-IS

ALLERGIES AND ANAPHYLAXIS

- Mild allergy symptoms are treated with antihistamines.
- Anaphylaxis is treated with adrenaline, which is administered via an adrenaline device, injected into the outer upper thigh or using a nasal device.
- Anaphylaxis is a medical emergency and a threat to life.

ANAPHYLAXIS SYMPTOMS

AIRWAY

Symptoms include swelling in the throat, tongue or upper airways; tightening of the throat; a hoarse voice; and difficulty swallowing.

BREATHING

Symptoms include persistent cough; sudden onset of wheezing; breathing difficulty; and noisy breathing.

CIRCULATION

Symptoms include pale and clammy skin; dizziness; feeling faint; sudden sleepiness; tiredness; confusion; and loss of consciousness.

In extreme cases of anaphylaxis, there could be a dramatic fall in the patient's blood pressure. The patient may become weak and floppy, and have a sense of something terrible happening. Any of the ABC symptoms listed above may lead to collapse and unconsciousness and, on rare occasions, be fatal.

WHAT ADRENALINE DOES

Adrenaline reduces swelling, opens the patient's airways and raises their blood pressure. Patients must go to hospital for monitoring, as the reaction could return.

TOP 14 FOOD ALLERGENS:

(However, be aware people can be allergic to anything.)

Meet Our Expert

Anaphylaxis UK is the only UK-wide charity operating solely for the growing numbers of people at risk of serious allergic reactions and anaphylaxis. While there's no treatment or cure for anaphylaxis, we believe that by providing information, training and support, there's a brighter future for people living with serious allergies.
